HELMSMAN BUYING SYSTEM

This method of buying cattle was first used at the “Helm View” Sale in 1990. It combines the best features of both the auction system and sale by private treaty; you get first pick and pay market value without any pressure.

1. Prospective buyers need to register prior to the start of the sale and be allocated a buyer number.
2. The sale cattle are on display as usual however they are not moved during the sale.
3. A large, easy to read board will be located nearby, displaying Lot Number, buyer number and price.
4. Bids are written on a card and presented to either the Registration Clerk or a “runner”, and the board is updated. A “Sale presenter” will announce each bid as it is recorded.
5. The opening bid on each lot will be written on the board and further bids of \$500 or more will be accepted.
6. A bid once submitted and recorded cannot be retracted, and the person submitting such bid will be responsible for it until it is overbid.
7. All cattle are for sale simultaneously for a period of 20 minutes.
8. A bid in the last minute will result in a one-minute extension of selling time. Any further bids trigger the same process until a full one-minute no bid period concludes the sale.

THE BENEFITS

1. You have more time to consider lodging a bid. You can place genuine bids on any beast of your choice at any time during the sale period.
2. You can re-assess each Lot during the sale period without any pressure to make an instant decision.
3. You take home the cattle you want, irrespective of Lot order.
4. If you need more than one bull, Helmsman gives you a better chance to average your purchase costs.
